DATE MAILED: 03/18/2004

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 180 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 180 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office Patent Legal Administration at (703) 305-1383. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

1. Receipt is acknowledged of Applicant's response filed 26 February 2004. In the response, applicant stated that an appropriate terminal disclaimer has been filed in the copending application (i.e., application number 10/222,132) to overcome the provisional obviousness-type double patenting rejection over claims 1-22 of copending application number 10/222,132. The terminal disclaimer filed on 26 February 2004 in the copending application number 10/222,132 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of this instant application has been reviewed and is accepted. The record of the terminal disclaimer filed in copending application number 10/222,132 have been reviewed and confirmed by the PTO.

Allowable Subject Matter

2. Claims 1-19 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Nagaoka teaches a card destruction system for destroying the card based on the stored data having a reader that is configured to read identification information from a card; a controller is coupled to the internal components for their control/communication, wherein the controller is configured to receive the identification information and to determine whether the card is to be destroyed; a card destruction device that is configured to receive and destroy cards; a card insertion sensor and a card output sensor for specifying the time limit for judging the card and wherein the card is judged to have zero balance, the card is transferred to belt of conveyor through the shredder. The insertion sensor detects the card when the card has entered the moving system, and the output sensor detects the card when the card has exited the reader.

Chang discloses a medium shredding machine having a medium delivery sensor to sense when the card is delivered to a card destruction device for controlling the activation of the shredder.

Art Unit: 2876

Vulcano discloses a machine for sorting medium having an optical reader to read the indicia on the medium for controlling the sorting function, which includes shredding the medium. The machine includes the moving system having a feed mechanism that having a feed hopper is configured to feed individual cards from a stack of card to the path of the moving system and a controller that recognized the medium being sorted and wherein the controller performs all housekeeping functions.

One of ordinary skill in the art would not have been motivated to modify the teachings of Nagaoka, Chang, and Vulcano, alone or in combination with other references, in order to obtain a card destruction system configured to produce an automatic record of the destruction based on the received identification information used to identify and determined each card to be destroyed, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
